# Playdough Fun

With such a busy day today Miss Taylah quickly went upstairs to the store room before all our friends arrived this morning and grabbed all the different coloured playdough and some playdough cutters.

Once morning tea had finished we cleaned up and got ready to explore the playdough, each of the children at the table had two different coloured pieces of playdough and their choice of playdough cutter, once each of the children had their playdough and playdough cutters, Miss Taylah placed the rest of the playdough cutters in the middle of the table for each of them to explore when ready.

Throughout this playdough experience the children were able to get in touch with their senses, they were smelling the playdough, touching the playdough and some even had a small taste (Non toxic).

Miss Zoe talked about the different coloured playdough we were using and all the different shaped cutters we had on the table, majority of the playdough cutters were animals, we talked about the different sounds those animals made.

As the children pressed the cutters onto the playdough, they pressed their hands firmly down, lifted up the cutter and got excited as they seen the animal print transfer onto the playdough.

# Spontaneous Play

After we experienced playing with the play dough the children helped Miss Taylah and Miss Aura pack away the play dough so we could have fun playing around before lunch today.

**Hannah** and **Isabella** sat down with Miss Zoe playing with the building blocks, whilst playing with the blocks **Hannah** and **Isabella** also showed Miss Zoe them high fiving each other. **Isabella** would say 'Hannah' whilst putting up her hand so **Hannah** could high five her.

While **Weixuan** was playing in the home corner with all the different toys, he was happily dancing to the wiggles smiling and giggling as he continued to dance.

When Miss Aura was blowing bubbles for the children **Aria** and **Olivia** were running around clapping there hands together in excitement as they were popping the bubbles!

**Amal** was playing with our toy magnets showing Miss Zoe how they connect together, with a smile on her face she built whatever she pleased with the magnets!

# Analysis of learning

Fine motor skills

Exploring their senses

Recognition

Feeling safe, secure & supported

Using their creative skills

# Reflection of the day

The children had a really good today, their were moments where the children were overwhelmed with emotions but as the day went on they settled. Isabella settled in really well to-day, she was engaging in the experience, playing with the toys and ate all of her lunch. Olivia also had a really settled day and fell asleep with ease with the support of Miss Aura.
