# Let's read a story with Miss Aura

**Amal** grabbed a book this morning and prompted Miss Aura to read it with her, after Miss Aura finished reading the story with **Amal**, she thought it was a good idea to grab out the farm animal book, as **Amal** and **Archie** showed an interest in the farm animals on the table this morning.

While Miss Aura read through the farm animal book, **Archie** got up close and pointed at all the different animals he could see, Miss Aura went through all the animal names and all their sounds they make. While reading through the book, **Amal** explored the little wooden animals and barn while listening to Miss Aura read through the story.

# Spontaneous Play

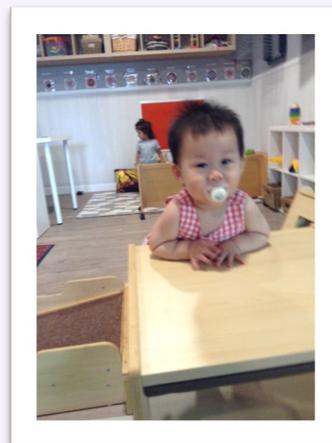

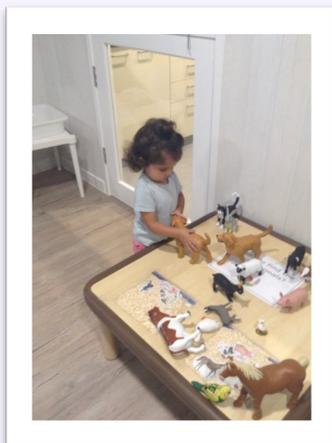

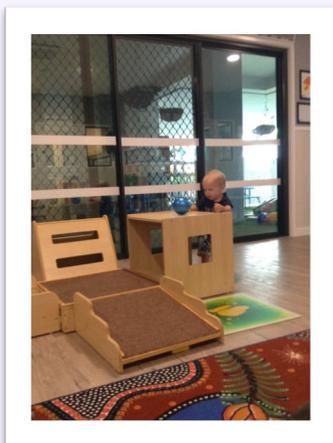

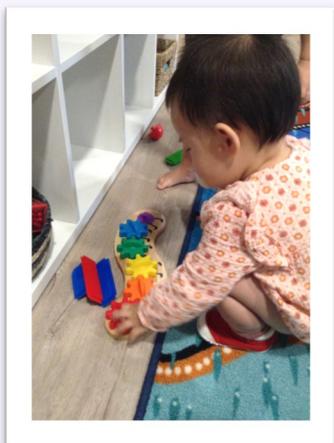

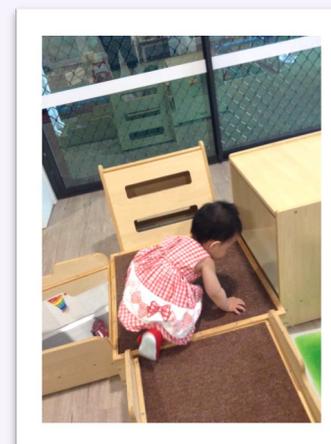

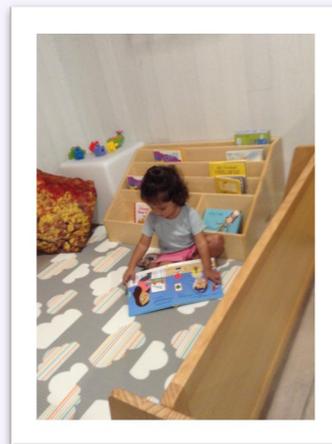

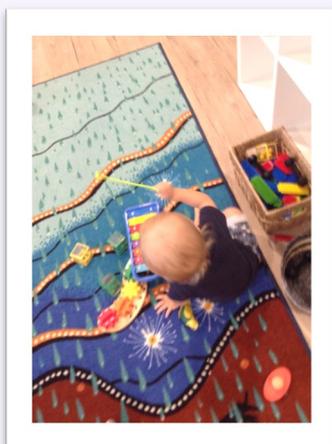

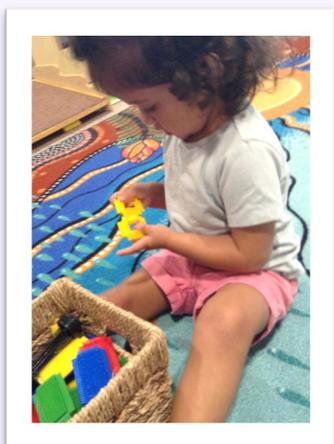

Through out the morning the children enjoyed free play inside as it had been raining most of the morning and was a little cold outside. Miss Taylah put on some music in the room to listen too as we explored the different toys on the shelf. **Olivia** was loving all the different songs Miss Taylah had put on, **Olivia** jumped up and down, clapped her hands and was full of smiles. Amal bopped her head and swayed her body along to the music as she explored the caterpillar puzzle and animals. While **Amal** was exploring the animals at the table, **Archie** joined in and began exploring the animals individually, as he had finished with each of the animals, he passed them over to **Amal** to also have a little look. **Archie** showed great sharing with his friend Amal this morning.

**Olivia** explored the shaker blocks that she found on the shelf, she grabbed down the basket and tipped out all of the blocks, once they were all tipped onto the floor she started stacking them on top of each other, when they were all on top of each other she pushed it over, clapping her hands and saying "yay". **Archie** showed an interest in the small dinosaurs on wheels, he pushed them along the carpet while saying "Raah". **Amal** was interested in the stickle bricks, she stuck as many as she could together before going off to explore some more.

5.1

# Reflection of the day

We had a really quiet day today with just three children. Having a quiet day was really good for Olivia, as it helped her settle into the room really well and get to know the other two children and the educators in the room.

After Amal had prompted Miss Aura to read a story with her, we thought it was a good idea to bring out the farm animal book to see if the children were still having an interest in farm animals. Amal and Archie really enjoyed reading a story with Miss Aura.
