Olivia's first day!

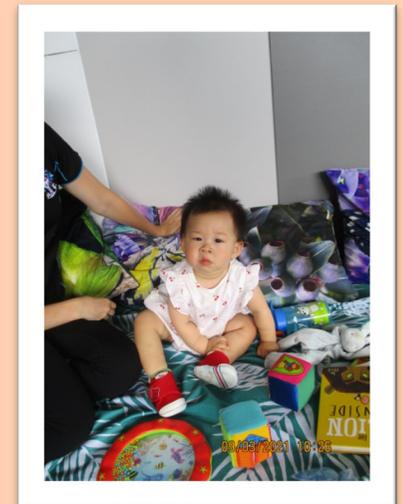

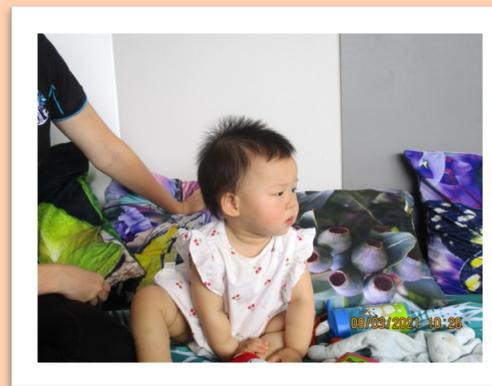

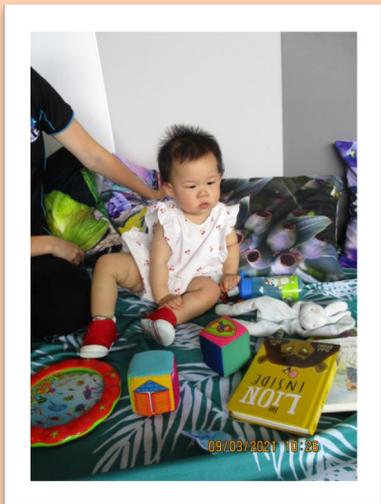

A big welcome to our new friend Olivia, what a pleasure it has been to help you through your first day in the Jellyfish room.

Times were a little overwhelming but you felt comfortable within your educators arm throughout the day.

You met some of your new friends and giggled when they came up to say hello.

We can't wait to continue guiding you through this new and exciting journey with you **Olivia**.

Can you find the animals?

What a fun and exciting experience Miss Taylah set up for us today. Miss Taylah prepared zip lock bags filled with oats and pictures of different farm animals, she then tapped them to the table to allow us to explore.

We each had a turn at exploring the sensory bags along with the animals sitting around the table. The meaning of this experience was for the children to learn recognition with different animals and items as well as getting in touch with their fine motor skills.

Weixuan and **Archie** were the first to explore the sensory bags, using both their hands to push the oats around the bag revealing the different animals. **Amelia** and **Hannah** at their own pace came over to the table to have a look at what their friends were exploring, **Hannah** reached her finger out and pointed to the animals, saying the name of the animals in Chinese. **Amelia** giggled each time she moved the oats around. **Harvey** used his whole hand to push the oats around and continued to say "wow" as he seen a new animal.

Outside Play

After exploring the animals Miss Taylah set up today, the children got the opportunity to play outside before lunch time. **Harvey** and **Amelia** were extremely excited to play with the home corner equipment they were happily showing Miss Aura all the different foods that they were pretending to eat. Being outside for **Olivia** was a little overwhelming at first, but once she saw the other children playing she then started to sit down happily and interact with all the different toys with Miss Zoe's help. **Harvey** was having so much fun playing in the car, he loves to turn the stirring wheel as well as climbing all over the obstacles. **Weixuan** and **Jayden** were using their imaginations to play with the outside building blocks, both extremely happy when they were using their imagination to build. **Amal** and **Archie** were spontaneously playing with all the different toys around them, **Amal** was showing Miss Zoe all the different colours on the ribbon she found.

Reflection of the day

We welcomed a new friend into the room today and had some of our friends that were away last week back today. They enjoyed the experience set up and outdoor play. Tomorrow we will continue with our interest in farm animals.

Sleep, eat chart

<u>Jellyfish</u>		Staff Name		Taylah	Aura	Zoe
