Easter bunny painting

Easter bunny painting, what a fun experience that all of our Jellyfish friends joined in on, each of the children happily took turns at the table to do their bunny painting with Miss Taylah.

For our bunny painting, Miss Taylah had prepared a small bunny shape sticky taped to our paper, large pom poms, pink, purple and blue paint.

The children dipped the pom poms into the different coloured paints, then splashed the paints onto their paper, the paints mixed together on their paper and made a very pretty pattern. Some of the children used a swiping method with the pom poms and some splashed their pom pom all over their paper.

Some of the children weren't sure on the paint getting onto their hands but once it was washed over they happily continued their painting.

This painting experience allowed the children to come together and watched each other become creative within themselves. The children are showing a great interest in the easter experiences, we can't wait to continue this throughout the next couple of weeks.

Group time

For a group time experience Miss Taylah thought it was a perfect idea to read a book with all the children. As we are leading up to Easter we thought it was the perfect opportunity to read a Easter book.

All the Jellyfish children participated in this activity, the Easter book was a fun, entertaining story as it made the children find the Easter eggs hidden amongst the pages.

Isabella and **Hannah** loved sitting down finding the Easter eggs with a little help from Miss Taylah. **Amal** wanted to read the story all by herself, gently taking the story from Miss Taylah hands while turning the pages on her own. **Weixuan** and **Archie** both sat next to Miss Zoe quietly listening to Miss Taylah read the story and find all the Easter eggs. **Jayden** and **Harvey** loved when we found the Easter eggs as a group especially when Miss Taylah would flip the hidden part of the pages where the Easter eggs were hidden, they would both start smiling and giggling!

Reflection of the day

The jellyfish children had a really good day today with lots to do, each of the children were interested in the painting experience, as well as a small group time with easter books. The children were all settled and happy.
