

Starfish Daily Stories

Story of the day
'Aussie egg hunt'

Today's story we learnt about some Australian animals and some of the noises they make.

Helping clean the shredder paper up.

Shredder Newspaper

We enjoyed a sensory activity using shredded paper and some animals. Ashlyn played with the goat in the newspaper and covered her feet in the shredded paper as well.

Max and Mason came over to see what Ashlyn was doing. Miss Korissa placed some shredded paper in front of them. Mason wiped his onto himself right away after touching it and didn't seem to like how it felt and moved away. Max didn't touch the paper at all and picked the animals up to play with on the table. But once the activity was finished the two boys were happy to help clean up the mess

Animals seem to be a favourite in the room today.

Here are some photos of Max, Mason and Harlow playing with the animal puppets.

Mirrors have many benefits with babies, one being their visual tracking skills become stronger as they watch reflections of moving things.

Timothy Enjoying looking at himself in the mirror. Timothy also looked at himself with different colours.

Seeing the world in RED!

Working on our gross motor skills

With lots of crawling and climbing on the obstacle course items, Max , Mason and Harlow worked on their gross motor skills. Benefits for this activity include building Muscular strength, Balance and Coordination.

Max, Mason and Harlow seem to enjoy climbing and crawling over everything they could.

Analysis of learning

LO 3.2 – Children take increasing responsibility for their own health & physical well-being

LO 5.1 – Children interact verbally & non-verbally with others for a range of purposes

LO 1.3 – Children develop knowledgeable & confident self - identities

Reflection of the day

Today the starfish enjoyed working on their fine and gross motor skills throughout the day.

They are starting to get into the mirrors and looking at themselves or friends, laughing at each other or themselves. Mirrors are great benefit with he babies and something we will explore more.
