

STINGRAY DAILY STORY

This morning during outdoor play Miss Briohny and the children did some gardening at one of the tables. Using a shovel and a cardboard cupcake paper the children filled them with soil before they placed in two bean seeds, once they had placed the beans in the used the shovel to cover them with soil. This activity encouraged the children to take turns and to develop an understanding of the world around them. The children also engaged in some dress up while outside as well as playing on the obstacle course.

POM POM PAINTING

To continue with our Mother's Day craft this morning the children did some coloured pom pom painting on brown paper. Pressing the pom poms into the paint they ensured they were covered before stamping them across the paper. Nathaniel and Hanson chose to use the pom poms to brush the paint across the paper. The texture of the pom poms creates a unique design in the paint as it is pressed into the paper. Miss Taylor also joined the children in their painting. This afternoon we will start working on our Mother's Day presents.

DISNEY OOSHIES

Miss Briohny brought out her collection of ooshies for the children to play with. They happily browsed and squished the variety of ooshie characters from popular Disney and Marvel movies. Miss Taylor told them the names of each of the characters and Violet even recognised the character Elsa from the movie "Frozen". This ooshie activity enabled them to develop their recognition skills and even imaginary play.

FREE PLAY

During free play today, the children were engaged in numerous activities. Mikayla, Nathaniel and Yoonu sat in the cosy cubby house full of pillows. Mikayla and Nathaniel used the play tool equipment and pretended to repair the cubby house, meanwhile Yoonu had a little rest while his friends were at work. Miss Taylor brought out the toy cars, airplanes and boats and these new toys sparked an interest in the children. Yoonu and Xin Yang observed how magnifying glasses work and noticed it made objects appear bigger. Xin Yang also had a go on hopping from one sensory tile to another.
