Exploring the texture of Jelly

Today we had a very exciting experience to explore today!

Yesterday afternoon we thought of an amazing idea to let the children explore the adventures of Jelly, so Miss Taylah prepared yellow Jelly with strawberries inside.

Miss Zoe sat all the children up at the table to start the experience, as I was cutting the Jelly **Aria** was throwing her hands up in excitement. She didn't know what it was at first but once she felt the Jelly for the first time she was picking the Jelly up and pressing down on it with her hands, to feel the texture of the Jelly.

Eleanor and **Amelia** both were loving playing with the Jelly and strawberries, mashing it up with their hands and fingers while smiling and giggling to each other. They were both hesitant to eat the Jelly at first but once they tried it they kept asking for more and more.....

Zaidyn wasn't shy at all to explore playing with the Jelly, going straight in mashing up the Jelly with his hands! Even though he loved playing with the Jelly his favourite part was definitely eating the Jelly!

Ayden was a little hesitant to play with the Jelly at first, as he didn't know what he was experiencing. But with a little help from Miss Aura, **Ayden** was playing with the Jelly all by himself feeling the different textures of the Jelly and strawberries in his hands.

Inside Play

Zaidyn continued his climbing skills inside, climbing, down and all around the indoor climbing frame, **Aria** joined in on the climbing frame with **Zaidyn**, they both showed their educators how brave they could be. **Amelia** and **Aria** both took turns on the rocking horse, rocking back and forth, **Amelia** giggled at Miss Zoe as she continued to say "Neigh". **Ayden** enjoyed some one on one time with Miss Aura, reading through all the different books they could find on the book shelf.

Outside Play

Tiffany and **Aria** had a lot of fun this morning exploring the dinosaur sand experience that was set up right outside the jellyfish room. They both explored the different shape and sized dinosaurs, along with the trees, rocks and tractors they were through out the sand experience. **Tiffany** and **Aria** both said "Raah" as they pushed the dinosaurs through the sand. **Zaidyn** was off exploring around the large climbing frames, he walked around each of the ducking down and jumping up, playing peek-a-boo with Miss Zoe! **Amelia** was loving making her own music with the help of Miss Zoe, using the stick to make the different sounds from the xylophone, this make **Amelia** giggle.

Analysis of learning

Fine motor skills

Exploring their sense of touch

Exploring their sense of smell

Exploring their sense of taste

Feeling apart of a group

Communication

Building relationships

Reflection of the day

Today we had an amazing day to finish off the week, exploring the adventures of the Jelly was heaps of fun for the Jellyfish children as they got to explore their sense of touch, smell and taste. The Jellyfish children loved to participant in spontaneous play so for them to get to experiance both outside and indoor play made all the Jellyfish's super happy!
