

Stingrays, Sharks & Whales daily story

- Thursday, April 22, 2021

Visit to the Sharks room

After morning tea, the children, Miss Hannah and Miss Caitlin went to visit the Sharks room ahead of the Sharks and Whales move there next week.

The children had so much fun again exploring all of the new resources, activities and toys. Lucas, Leo and Jihoon got to work building a road while Raina and Irene did puzzles and played in home corner.

Joanne and Philip enjoyed playing with different model animals while Alina quietly explored the room.

Great work everyone!

AFL lesson

Today Miss Kay from Physi-kids visited to teach the children AFL skills.

First Miss Kay lined up two ropes on the ground for the children to jump on and across before teaching them how to handle a football.

She pointed out that the football had two noses and how to bump one of the noses using an upwards fist motion to launch the ball through the air.

The children practised passing the ball using their hands before grabbing the ball by jumping up high to take it from Miss Kay's hands.

Later the children had a go at kicking the ball using a high kick motion.

Thanks Miss Kay for such a fun lesson that helped the children to develop a love of sports and improve their agility and co-ordination.

To sign up your child for Physi kids lessons, please visit physikids.com or phone 0414 559 997.

Alternatively, please make an enquiry via Mr Shane.

Earth Day

To celebrate Earth Day, Miss Caitlin read a big book about recycling to the children.

The children realised that three arrows arranged in a circle or triangle sign was a recycling symbol that could be found not only in the pages of the book but also on recycling bins!

Miss Caitlin made playdough that Jihoon and Leo added blue and green food dye to make the Earth.

The Stingrays, Sharks and Whales have been doing lots of gardening recently to learn about how to cultivate vegetables.

We will continue this theme of sustainability throughout the year.

Analysis of learning

Learning Outcomes Achieved:

1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 4.1,
4.2, 5.1

Reflection of the day

We had another combined day today as we get ready to move classrooms next week. The children are always more settled when there's more in the room. We spoke about Earth Day and what we can do to help contribute to the solution of pollution and recycling.

Sleep, eat chart
