Outside group time with Miss Taylah

We decided to have a change of scenery for our group time today and read our focus story book outside on the mat. All the children were having a lovely settled morning so we had a bit of a spontaneous morning and done some art work. After our fun morning inside, we headed outside for a bit of a play before heading inside for rest time. Before heading inside, Miss Taylah gathered everyone onto the mat outside the Jellyfish room to have a little group time and read through our focus book "The Lion Inside".

The Jellyfish children are getting really good at understanding group time, as soon as Miss Taylah, Miss Zoe or Miss Aura ask the children to come sit down and read a story, they all race to sit down in a group.

Let's create the very fierce lion!

This morning we used brown tissue paper, glue and some yellow circle paper to create our fierce lion from the book "The Lion Inside". **Tiffany** was the first to sit down at the table with Miss Taylah, ready to start her craft, once the glue was on the paper, **Tiffany** started to place the brown tissue paper around the edges of her lion, at first Tiffany started to pull the paper off once it was glued on. **Ethan** then sat down after and was really excited to get his craft started, he used the glue brush to softly brush the glue around the edges, then started to add on his tissue paper one by one, he was so proud of himself. **Hannah** waited patiently by the table waiting for her turn, she put down lots of glue then added lots of tissue paper to make a big main on her lion. **Ariana** has lots of fun throwing the tissue paper up above her paper and watching it float down onto her paper. **Eleanor** softly brushed the glue across her paper and one by one stuck on her tissue paper, she added lots and lots to make her lion very fluffy. **Ayden** wasn't too sure about putting the glue onto his paper as it was very sticky and sticking to his fingers, he happily placed the tissue paper onto his paper to create his lion. **Olivia** sat down with Miss Taylah and pointed to the tissue paper on the table with a big smile on her face, she was so proud of herself once she had finished creating her lion.

Spontaneous Play

After morning tea us Jellyfish educators decided to let the children explore the classroom! Every time after morning tea the children get so excited to play with all the toys we have roaming around the room.

Eleanor and **Tiffany** have a new obsession with the baby dollies that we have in the toy cot. Miss Taylah brunt in some new outfits for the baby dollies to wear. The girls loved looking after the babies this morning.

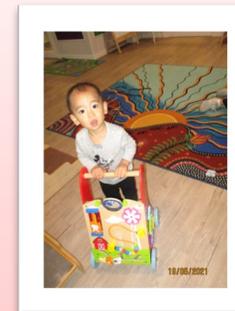

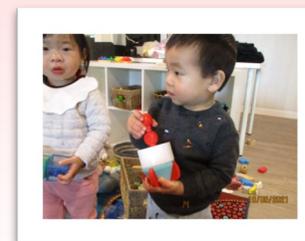

Ayden and **Harvey** love playing peek-a-boo through the wooden tunnel obstacle that we have inside. Giggling at one another as they peeked there heads through the tunnel.

Ariana, **Hannah** and **Isabella** were sitting on the carpet with Miss Zoe, showing Miss Zoe how high they could build a tower with the blocks before it fell over.

Ethan and **Jacqueline** were having so much fun running around the classroom, playing with all the different toys that we have in our Jellyfish room!

Olivia was happy playing with many different toys but her favourite part of spontaneous play this morning is when Miss Taylah put on 'Baby Shark' for all the children to dance too!

Building relationships

Reflection of the day

Overall, today was a busy but fun day in the Jellyfish room, with all the children getting used to our daily routine of reading a story and expanding on from the story by creating artworks with the animals in the story. The children are really starting to enjoy listening to the story each day they especially love when we get to make different animals for arts and crafts!
