# Gardening

Today the children helped to plan chrysanthemums in the garden bed.

Jihoon and Lucas rolled up their sleeves to dig holes into the dirt before taking the flowers out of the pot to plant them into the soil.

Raina and Irene soon came along to help out, grabbing scoops to help move dirt plant the flowers.

Afterwards, the children helped to make sure the flowers were all watered in using watering containers.

They all did a great job helping to make the big yard bloomin' beautiful!

Make sure to check out the flowers the next time you're at BTP Early Learning Centre!

# Physikids

The children got active in the morning when Miss Kay from Physikids visited.

She had some very tricky tasks for the children to help develop their agility!

Jihoon, Philip, Steven and Leo all tried their hardest to walk with plastic eggs in spoons, taking lots of care to not let the egg tumble out and crack on the ground to reveal a soft plush egg yolk.

Next up, some of the children practised walking with a partner. It was quite difficult for some of them to move forward with a friend as they had to move their outside legs together, following by their inside legs!

Jihoon and Philip managed to take a few steps forward though! Great work!

Thank you Miss Kay for visiting us today at BTP Early Learning Centre.

If you would like to enrol your child, please make an enquiry via Mr Shane or visit [physikids.com.au](http://physikids.com.au).

# Outside play

Oh what fun we had outside today!

We decided that we would have an outside morning, bringing all of our indoor activities out onto the veranda.

At one table the children had playdough to create and manipulate into whatever their hearts desired. Lucas made pasta with the help of the playdough tools.

At the next table Alina and Miss Caitlin were using Alina's special pens to draw some beautiful drawings for Alina to take home. Steven, Leo, Raina and Irene eventually came over to the table to join in. Miss Caitlin found some more pens for everyone to have a turn and create a masterpiece.

At the last table Miss Caitlin found some new puzzles for everyone to solve. They had the different seasons displayed on the front and we worked together as a team to solve them all.

Written by Miss Caitlin

# Analysis of learning

## Learning Outcomes Achieved:

3.3.2 Developing awareness of the senses

2.3.1 Caring for the kindergarten

2.3.2 Exploring interactions between people and the environments

5.2.1 Engaging with different texts

# Reflection of the day

The children had a great day enjoying the outdoors and helping to beautify the bigyard. Being outside in the fresh air was so relaxing and afterwards, when we went inside, the children listened to a story called Where the Forest Meets the Sea.

Helping to look after our environment and being in touch with nature is so rewarding!
