# Fun with Physikids

Today Miss Kay from Physikids helped the children to warm up with a fun song and dance about muscles before setting up a special obstacle course.

Miss Kay told the children that they had to pretend they were firemen and women scaling a ladder and steps to put out a fire.

After this, the children practised their throwing and catching skills with a giant tennis ball!

Thank you Miss Kay for the very fun physical education lesson!

If you would like your child to continue undertaking lessons with Miss Kay, please enrol them at [physikids.com.au](http://physikids.com.au) or enquire via Mr Shane.

# Story time

The children listened to a great book today called Cave Baby. The baby, who gets in trouble from his parents for painting on the wall, finds that his talents are better shared with a family of woolly mammoths who live nearby.

The children looked at all the colours the baby use for his wall paintings and many were able to confidently identify red, yellow, green and blue colours.

After story time, the children did their own paintings using blue, red and yellow water paints in spray bottles. They also played with yellow and red play doughs.

# Planting marigolds, rosemary and mint

The children spent some time outdoors earlier today planting marigolds, rosemary and mint.

The marigolds were vibrant orange, red and yellow colours, which drew the children's interest straight away.

The flowers, which are edible, also smelt really good, as did the rosemary and mint.

Leo, Raina, Irene, Ellie, Alina and Lucas all got involved in the gardening outside and helped to make sure the plants were watered well.

The flowers and herbs are in two of the planter boxes on the tree seats.

Great work everyone! Fingers crossed that the plants survive the outside conditions and thrive.

# Fun with colours

The children absolutely loved creating their own beautiful artworks using spray bottles filled with blue, red and yellow water paints.

Lucas, Joanne, Alina and Steven loved the activity so much they covered a few sheets each with paint.

After this, some of the children played with red and yellow playdough, using squeezers to press the playdough into pasta shapes.

# Analysis of learning

- 2.3.2 Exploring interactions between people and environments
  - 3.3.1 Developing control and strength
  - Developing awareness of the senses
  - 4.1.3 Being imaginative and creative

## Reflection of the day

The children had so much fun outside today planting flowers and herbs, creating beautiful water colour artworks, exercising with Miss Kay and playing on the jungle gym.

It was so enjoyable as the children had spent yesterday inside most of the day due to the rain.
