Baking cupcakes for Amal's 2nd Birthday!!

Firstly we would all like to say a massive happy 2nd birthday to our friend **Amal** for yesterday. Yesterday **Amal** celebrated her 2nd birthday with family and friends, today Amal was able to celebrate her birthday with all of her Jellyfish friends and Educators, and by celebrating we made some very yummy cupcakes as a big group.

Today the Seahorse and Jellyfish children were combined together, they each got a turn at making the delicious yummy cupcakes. Miss Zoe went around the class giving the children each an opportunity to pour the ingredients into the mixing bowl.

As it was **Amal's** birthday yesterday Miss Zoe let her have a go first, she poured the flour mixture straight into the bowl with a massive smile on her face, she was so proud of herself. The other Jellyfish's were also extremely excited to help Miss Zoe and Amal make the cupcakes.

The Seahorse children also got the opportunity to make some delicious cupcakes for **Amal's** birthday. This was the first time the Seahorse children have done cooking before, so they were all a little hesitant at what was actually happening. But as they saw the Jellyfish children make the cupcakes confidently, that gave them the confidence to have a go and make the amazing delicious cupcakes.

Spontaneous Play

What a hectic but fun day we had with the Jellyfish and Seahorse children combined. The two classes got the opportunity to combined together to make new friends and explore the classroom together.

As soon as morning tea was finished the children set off to play with all the toys that we have in the Jellyfish classroom.

Eleanor and **Amal** love to sit with Miss Zoe and read a variety of stories, they each flip through the pages and point to the illustrations.

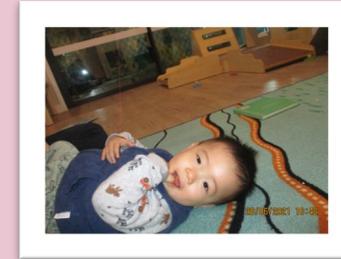

Amelia and **Tabitha** had so much fun playing in home corner together. Showing each other all the different foods they had.

Archie and **Aiden** loved playing with all the different dinosaurs they especially loved the big green dinosaur.

Ariana and **Alina** had so much fun exploring a new environment, getting to play with a new variety of toys was so much fun for them to explore.

Ivy and **Owen** got to explore the classroom with a little help from Miss Megan. She helped them stand and walk to whenever they wanted to play.
