Dinosaur Exploration Tray

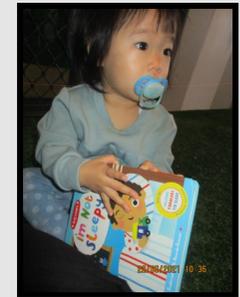

Continuing on with our interest in dinosaurs, Miss Taylah set up a sensory tray outside the jellyfish room, filled with recycled shredded paper, dinosaurs, wooden trees and the soft building bricks to act like big rocks.

The exploration tray was set up and presented in a very inviting way with lots to touch and look at. As soon as it was all set up, the Jellyfish children came racing outside and dived right into the sensory tray ready to explore. They each took their time to explore each of the different dinosaurs, the shredded paper and all the other little addons they could find in the tray.

While exploring the sensory tray, Miss Taylah talked about dinosaurs and how some of them ate trees, this resulted in some of the children trying to feel the wooden trees to the dinosaurs. They also talked about the sounds a dinosaur makes "Roar" goes **Weixuan, Harvey, Amal, Ethan and Eleanor. Weixuan** was very excited as he had a dinosaur on his shirt just like the dinosaurs in the tray.

The children really enjoyed being able to explore the sensory tray at their own pace and being able to share their thoughts, ideas and interest with one another.

Indoor Play

The children were all extremely calm after morning tea time this morning, after finishing off their yoghurt and fruit it was time for the Jellyfish children to wonder the classroom.

Weixuan was extremely energetic this morning running around the classroom giggling and smiling, he played with many different toys. But he also calmed himself down to sit with Miss Taylah and read a story about dinosaurs.

Hannah and **Isabella** loved playing with all the different dress ups with Miss Vivian they loved wearing all the cultural indigenous skirts.

Ariana and **Aiden** were each very relaxed this morning sitting in our reading corner looking through all the different books we have on our book shelf.

Olivia and **Harvey** loved exploring our home corner, showing Miss Zoe all the different foods they were making!

Archie and **Aria** loved playing with our babies, they would carry the babies around giving them heaps of cuddles and would pretend to put them asleep in there cots.

Ethan and **Amal** were exploring all the different toys in our classroom they loved reading books and playing with the magnetic sticks. **Ethan** especially loved playing with the wooden obstacle course we have in our classroom!

Outdoor Play

After exploring the Dinosaur Tray, the children continued to play happily outside. All of them had so much fun playing with all the different toys that we provide for them.

Today, the children were extremely invested in the outdoor obstacle course and the green tunnel, from the photos you can see all the children having so much fun, smiling and giggling the entire time.

Eleanor, Ethan, Aria and Harvey were jumping and climbing all over the obstacle, **Eleanor** couldn't stop giggling at Miss Taylah pretending to fall down the mini slide. **Ethan** and **Harvey** were so proud of themselves when they finally made their way to the top each having massive smiles on their faces.

Weixuan and **Archie** loved playing peek-a-boo with each other as they made their way through the tunnel both giggling at one another as they saw each other's faces!

Aiden loved playing with the mini dinosaurs, he loved showing Miss Zoe all the different dinosaurs he discovered outside.

Analysis of learning

Fine motor skills

Gross motor skills

Connectedness

Recognition

Expressing their thoughts and ideas

Being aware of fairness

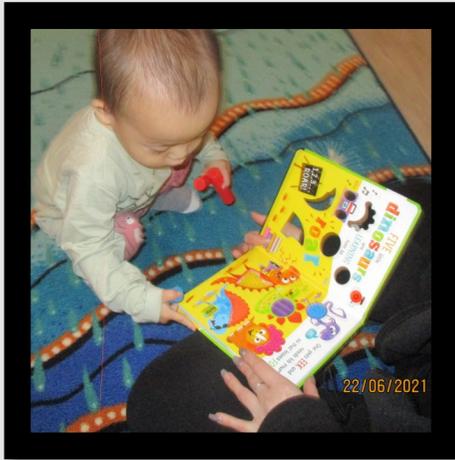

Reflection of the day

The children in the Jellyfish room, had a really settled and calm morning. The morning started off quiet and fun while exploring the indoor toys, after a little while they ventured outside to explore the dinosaurs exploration tray that Miss Taylah had set up then went off to explore the rest of the yard with each other.

The children have really shown a great interest in dinosaurs this week.
