Frozen fish exploration

To finish the week off we did a sensory activity with the Jellyfish children. This activity was based off the story we have been reading throughout the week 'Look and See'. Each day this week the children have created a different animal from the story. We made kangaroos, emus and turtles, so today we decided to use fish. Miss Taylah printed out some tiny little fish's so we could freeze them over night.

The children were a little confused what was happening when Miss Zoe gave them each a ice cube with a fish inside of them. But as they started to notice the fishes hidden in the ice, they all started to feel and play with the ice until the ice finally melted down!

Ayden had so much fun playing with the ice, he was recognizing all the different coloured fish. He was saying 'pink fish' and 'green fish'.

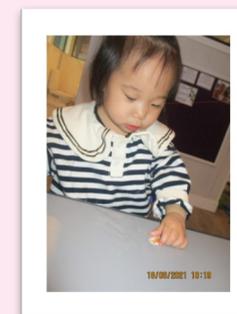

Amelia and **Olivia** loved to feel the cold ice, each making funny faces as they felt how cold the ice actually was!

Chloe and **Eleanor** were sharing their ice cubes with one another, each looking at all the different coloured fishes together. They both loved this activity!

Evan and **Tiffany** loved compressing their hands against the ice for it to melt down quickly so they could see all the fishes faster!

Aria also loved to feel the ice between her hands and fingers making many different faces as she felt the coldness of the ice each time!

Spontaneous Play

Today the children had a fun day playing with all of our toys inside.

Ayden had a lot of fun playing with the clear cube blocks that have beads in them he shook them about to hear the noise the different sized beads made and would hold the different colors up to show Miss Aura and say what the color was he did such a great job.

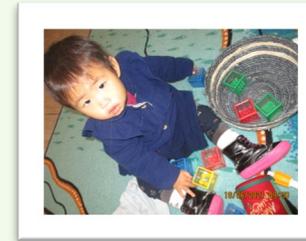

Amelia enjoyed sitting down in book corner reading the different books as well as playing with the stacking rings and multi connector blocks after playing in book corner she headed on over to play with **Aria** in home corner where they pretended to cook food for each other and take care of the baby dolls.

Chloe had fun playing with the magnetic sticks and balls along with **Evan** they had a lot of fun connecting them together to see what types of creations they could make when they had enough of playing with the magnetic toys **Chloe** went and had fun doing some puzzles and **Evan** had fun playing with the foam bricks.

Tiffany and **Olivia** enjoyed climbing on the inside obstacle course they enjoyed playing peek a boo on the tunnel side and had fun making faces at themselves on the mirrored side afterwards **Olivia** went and had some fun in home corner pretending to eat all the play food.

Eleanor enjoyed playing with the clear beaded blocks as well today with **Ayden** after she finished playing with the blocks she would go and grab some books and ask Miss Aura to read to her she really enjoys it when an educator reads her story's.

Reflection of the day

Overall, today was a great way to end the week with all the children extremely calm, they each participated in the sensory activity we had set up today with the ice and fish's. They all had so much fun using their imagination to explore the classroom as well. Us Jellyfish educators hope you have an amazing weekend!
