# Making muffins for World Environment Day

For World Environment Day the Jellyfish room decided to make blue muffins to represent the world we live in.

The children get extremely excited when we get to cook.

**Tabitha, Evan** and **Archie** ran straight to the table and patiently waited for Miss Zoe to get all the ingredients ready.

**Tabitha** was first up to pour the flour into the bowl, she gently tipped the measuring cup into the bowl. **Archie** clapped his hands in excitement as **Tabitha** poured the flour.

**Archie's** favourite part was pouring the apple sauce into the bowl, we use apple sauce as a replacement for egg to keep the mixture dairy free.

**Evan** loved stirring the mixture together, he loved when Miss Zoe added the blue food colouring. He was amazed as the mixture turned blue!

The children made delicious muffins for their afternoon tea snack!

# Group time

With only a small group of children today, us Jellyfish educators decided it would be a brilliant idea to read a nice story for group time this morning.

The story was called "Sometimes I Feel Anxious" it was about a lovely elephant describing all the different emotions you may feel when you get anxious.

The children were extremely engaged in this morning group time. Miss Zoe sat on the carpet with the story, the children came running over and sat quietly next to Miss Zoe.

**Evan, Archie** and **Tabitha** listened to the story quietly, **Evan** loved the big Elephant in the story pointing to it every time we turned the page. **Tabitha** was very quiet observing what the story was about, **Archie** was very interactive making many different sounds as we saw all the different emotions the Elephant felt.

The children really enjoyed today's group time this morning!

# Spontaneous Play

With only a small group today the children got to explore all the different toys inside and out.

Before morning tea this morning another educator from the Seahorse room set up balloons with water in it and tied them to the roof.

**Evan, Tabitha** and **Archie** had so many fun playing with the swinging water balloons chasing after them.

After morning tea, **Evan** decided to build towers with the alphabet blocks building it as high as he possibly could until it fell over.

**Tabitha** was having so much fun this morning, she played with many different toys her favourite was playing with the babies as well as playing in home corner.

**Archie** loves playing with magnetic connectors, he loves to pull them apart and stick them all back together.

**Eleanor** came a little later this morning, when she got dropped off she went straight to the puzzles. With a little help from Miss Vivian she was able to put all the pieces in the correct spot!

# Reflection of the day

Overall, today was the perfect way to finish the week off. The children loved making the cupcakes for World Environment day each having a turn at adding ingredients to the bowl and stirring the mixture together. Group time was a great success all the children were extremely engaged in the story quietly listening till the book was over. Today was a great day in the Jellyfish room!
