Recycling show

Today Miss Shelley visited all the children at BTP Early Learning Centre to teach us about recycling.

Miss Shelley introduced everyone to Recycle Rose and Sustainable Sam before taking the children on a journey to clean up the sky, waterways and land.

Through fun songs and dances, the children learnt about what coloured bins to put trash, recycling and green waste in.

After the children helped to bin all the of rubbish, Miss Shelley pointed out how insects, fish and creatures had returned to their natural environments.

Carter and Elora were dressed up as buzzy bees, who helped to lead everyone in a celebratory dance after the Earth was tidied.

Lucas Zhang, Stella, Philip also helped Miss Shelley at the front with her show.

Great work everyone!

Inside play

After the recycling show, the children played inside, either piecing together connectors, drawing or practising their letter writing.

So far we have learnt about the letters S, A, T and I and what sounds they make.

The children have loved learning about letters and using markers to practise writing them.

Ellie and Philip got busy drawing their own beautiful crayon pictures, as Lucas Ling, Alina and Lucas Zhuang connected multi construction blocks together.

Elora and Lucas Zhang practised writing their letters as Stella and Ayan helped to build a block construction with Miss Hannah.

There were only ten Sharks and Whales today in the Sharks room with Miss Hannah and Miss Talitha.

We joined with the Dolphins next door with Miss Caitlin during the recycling show.

Making mansions

The Sharks and Whales have enjoyed building their own cubby houses from large block connectors outside.

Earlier today, Miss Hannah helped Philip, Elora, Lucas Zhuang and Carter build an upscaled house that could fit two people inside.

It has been so fun to watch some of the children recreate these cubby houses using small connector blocks during inside play. We have also built cubes, pyramids and a hexagonal prisms.

The more we play with the blocks, the more creative our buildings become!

Analysis of learning

2.3.1 Caring for the kindergarten

2.3.2 Exploring interactions between people and environments

4.1.2 Problem-solving, investigating and reflecting on learning

5.2.2 Exploring sounds and letters

Reflection of the day

Miss Shelley's visit to the Sharks classroom for the recycling show was an entertaining and educational incursion for everyone. We learnt so much about how to sort out trash so that we can all be more sustainable. Everyone really enjoyed the songs and dancing too!
