

Starfish Daily Stories

Welcome Hailey

The starfish children and educators would like to welcome Hailey on her first day.

Hailey spent the day exploring the room, getting to her new environment and all her new friends.

We cant wait to watch you explore, learn and grow here at BTP.

Exploring

Story Time!

Today story was a sensory book that the children could feel and explore different textures and we read all about different bugs.

We read about bumble bees playing bumble ball, how high the grass hopper jump and a beetle skiing on a hill.

Mirror play

Lots of laughing and wonder who was looking and at them in the mirror today.

Mirrors can make babies feel calm and safe when they see themselves

Exploring the starfish room

We had lots of fun playing in the room with all the toys. We played with our friends sharing the toys. We also enjoyed time just playing by ourself.

We listened to music and did some dancing.

And we ate lots of yummy foo in our fun day.

Outdoor Fun

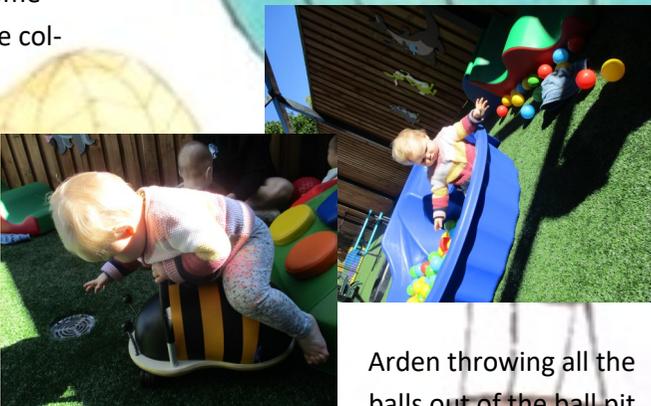

Wet chalk drawing.

The texture of the chalk when its wet is different to when its dry, even the way it draws. The children spend the morning outside and did some lovely drawings with the colour chalk.

Maddie working on her climb skills this morning and crawling around the yard to get all the balls.

Arden throwing all the balls out of the ball pit only to climb out and throw them all back in again. She has also been enjoying the ride on the bumble bee inside and outside.

Norah exploring the ball pit in the warm weather this morning and reading some books about different colours

Alina enjoyed the cars and animals outside on the mat, she also enjoyed the maze toys, chalk drawing and the ball pit

Hailey spent the morning exploring the new yard, she played with all the different toys and sounds.

Today the children explored the sensory bin again with all the different textures and objects. We had feathers, pop sticks, bottle tops, paper, straw and egg cartons. The children explored the bin how they wanted and found lots of different objects to play with.

We also added play dough with this for other textures to the mix. With the play dough we just used bottles tops and pop sticks.

Sensory activities

Analysis of learning

LO 3.2 – Children take increasing responsibility for their own health & physical well-being

LO 4.1 – Children develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination & investigation

LO 5.1 – Children interact verbally & non-verbally with others for a range of purposes

LO 1.1 – Children feel safe secure and supported

!! Important !!

Please remember to label ALL of your children things.

We have few children all with the some bottles within the room. We don't want to get them mixed up when sending home.

Thank you

Reflection of the day

The children enjoyed the outdoor this morning as the weather was a littler warmer.

The sensory activities with sensory bin and play dough they seem to really enjoy them.
