

Starfish Daily Stories

Cooking

Yum yum caramel cookie!

The children helped to add the yummy ingredients into the bowl. We then mixed everything together.

As we mixed everything together the children taste testing along the way.

Each step of the way we talked about what was going into the bowl and how we were mixing it all together.

The mix then was rolled into balls and cooked all ready for our yummy after tea tomorrow .

Rice play

The children enjoyed a fun sensory play activity with rice and sea animals.

At first they didn't want to touch the rice, so Miss Korissa showed the children how much fun it was to place your hand in the rice and move it around. Amelia copied and had a big smile on her face as she ran her fingers around the rice. Alina and Harlow then jumped right in picking the rice up and throwing it around. Lucky we were outside!

We added the sea animals for other items to explore in the rice.

Rice is a great sensory activity for the babies as they explore the different texture and work on their fine motor skills.

Outdoors

As the sun came up and it started to get warm, we explored outside taking in the sun.

We had lots of fun with rice play. We played with the different textured and sized balls rolling them all around the yard. We also worked on our gross motor skills with the obstacle course. We climbed and used it to hold onto as we worked on our balancing and explored the different shapes each part had. The children love crawling and rolling around the yard and seeing what they can find.

As we come into winter we will be getting the most out of the yard and making sure we get our vitamin D through out the day.

So please make sure to bring a hat :)

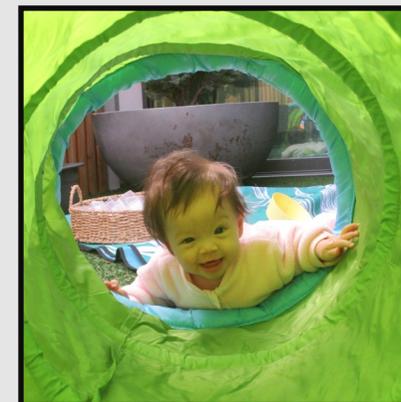

Analysis of learning

LO 3.2 – Children take increasing responsibility for their own health & physical well-being

LO 4.1 – Children develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination & investigation

LO 4.2 – Children develop a range of skills and process such as problem solving, enquiry, experimentation, hypothesising, researching & investigating

LO 5.1 – Children interact verbally & non-verbally with others for a range of purposes

The story of the day

The Three Little Pigs

Reflection of the day

The children seem to enjoy the obs course set up and exploring the different shapes. The balls are other toy the children really like to go with the different textures.

Rice play was a big hit with the children as they didn't want to stop play not even for lunch and didn't like when we packed away for lunch.
