

Starfish Daily Stories

Starting a band! Maddie and Amelia explored the different sounds all the different musical instruments made. We also sang some songs to go along with the music.

Coloured blocks!
We exploring the different shapes and colours each of each block.

Indoor Activites

Fine motor skills. Maddie and Amelia using the maze, moving the balls and blocks from one end to the other. They each had their own and worked by themselves for a little. We then got the big one out and all worked together to move them around.

Lunch time!

No better way to keep warm with some yummy chicken noodle soup for our lunch. Noodles are a favourite in the room with all the children.

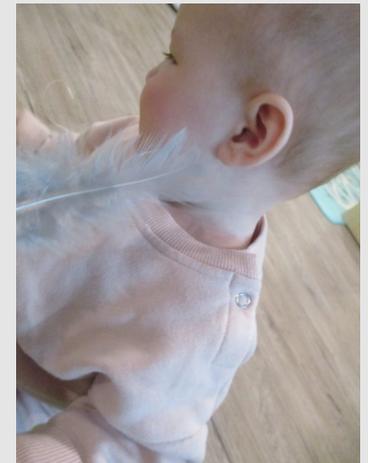

Sensory Bin

The children have been exploring different sensory items. Today we used straw, pop sticks, bottle tops, sponges, feathers, egg cartons and some googly eyes.

Together they would pull different items out and use their hands to feel the different textures. After they were done they would find other items to explore.

Miss Korissa always helped them explore the feather by tickling them all over their faces and hands. At first they were a little unsure about the feather but then started to play with them.

It's a bug life

As the children have been learning about different bugs, today we made lady bugs. The children glued black dots onto a lady-bug.

As the glue got stuck to their fingers so did the black dots.

We also read a book all about different bugs and looked at all the colours in the book. As we read the book we looked for all the ladybugs.

Analysis of learning

LO 4.1 – Children develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination & investigation

LO 4.2 – Children develop a range of skills and process such as problem solving, enquiry, experimentation, hypothesising, researching & investigating

LO 5.1 – Children interact verbally & non-verbally with others for a range of purposes

Reflection of the day

The children like the sensory bin activity, exploring all the different textures and objects.

The 'I love bug' books they seem to enjoy listening to the stories and looking at all the different pictures.
