

# Starfish Daily Stories

# Balls Balls Balls

Today the starfish explored the new balls. Each ball had different object inside like feathers, bells, heart shaped beads and different colour glitter.

The children rolled the balls around the room watching the objects inside move arounds.

Balls are a great way to get the children moving around and work on there gross motor skills and hand-eye coordination.

# Colours

Today the starfish learnt about different colours.

On the mat there were toys grouped into colours, as we played on the mat, we named the colours and had a look at all the different toys of that colour.

We also read a book all about colours and sang a song  
"I can sing a rainbow"

We used different toys and shapes and named the colours as for babies seeing full colour doesn't happen to around 8 months of time, but using the different shapes can help them identify the different colours.

# Outdoor

Enjoying the little bit of warm weather outside today. As we haven't had the ball pit in the room for a while Arden jumped right in. Amelia also hope in the ball pit to explore . As they were in the ball pit Arden was throwing the balls out for her friends that were not in the ball pit. Jonathan would throw them back to her. Alina explored the soft obs course rolling on the tubes and climbing up the mats. Amelia and Arden soon joins climbing and working there way around the obs course. Jonathan was a little unsure and watched as his friends did that.

# Analysis of learning

LO 3.2 – Children take increasing responsibility for their own health & physical well-being

LO 1.3 – Children develop knowledgeable & confident self - identities

LO 1.4 – Children learn to interact in relation to others with care, empathy & respect

LO 5.1 – Children interact verbally & non-verbally with others for a range of purposes

## Reflection of the day

As the weather is getting colder the children aren't spending as much time out. So using the upstairs outdoor area may be a good idea as we move more into winter.

The children seem to enjoy the way the mat was set up with the groups of colours and something we will continue to do and explore.
