Group Time

Good morning everyone and welcome back for another fun-filled week here at BTP!

This morning we welcomed a new friend into the Dolphins room. Welcome Jade! We hope you like it here just as much as we do.

To start off group time, we sang our usual songs like baby bumble bee and sleeping bunnies. Next we introduced a new book to the class called 'Possum Magic'. As our topic for the week is Australian animals we thought the children would really enjoy this book.

After, we watched a short documentary about the many different Australian animals we have living here among us. While watching the video about koalas, it explained what the word nocturnal means. When it reached the wombat section, the same word was mentioned. Carter looked at Miss Caitlin and said "They are just like koalas, they are nocturnal!"

Australian Outback

To further explore the topic of Australian animals, Miss Jade set up an experience for the children. The black tray was brought inside and filled with sand and bark. Miss Caitlin found all our wooden Australian animals to place inside and we even found some trees, fake grass, leaves and boulders. The children designed the tray how they wanted and decided which animals belonged in the different habitats.

We might have to keep this experience for the week as the children really enjoyed themselves.

Stay tuned for the many more different experiences we will have for the children this week!

Analysis of learning

- Learning Outcome 1 - 1.1, 1.2, 1.4
- Learning Outcome 2 - 2.1, 2.4
 - Learning Outcome 3 - 3.2
- Learning Outcome 4 - 4.1, 4.2, 4.3, 4.4
 - Learning Outcome 5 - 5.1

Reflection of the day

We had a very quiet Monday today as we had some children away and Miss Hannah at the other centre. Miss Jade joined Miss Caitlin today and put together a few ideas for the children to explore. The children responded positively to all the experiences provided and showed great interest in the topic for the week.
