

# STINGRAY DAILY STORY

## WEEKLY TOPIC: PERSONAL HYGIENE

## DAILY TOPIC: HAND WASHING, WIPING NOSE

# PLAYDOUGH GERMS

Day two of learning about personal hygiene. Today the children expressed their creativity as they used the playdough, some googly eyes and pipe cleaners to make some germs. Moulding the playdough into a mound shape, they smoothed it over with their fingers before selecting the amount of eyes they wanted to use. Once they had selected the eyes they pressed them into the playdough. Once they had spaced out the eyes they continued creating their design by adding some pipe cleaners. The children did a great job expressing their creativity and manipulating the playdough into the designs they had in mind. We will put the playdough out again tomorrow to continue to allow the children to explore their creativity.

# DIRTY AND CLEAN HANDS

As we learnt about washing our hand yesterday the children made their own copies of dirty and clean hands. Using brown and black pencils they drew over their hands, representing dirty hands. Once their dirty hands were finished they used blue paint on pom poms to represent cleaning their hands. Pressing the pom pom into the paint they stamped it across their page as soapy bubbles. The last piece of the children's art work was an image of a soap bottle that the children glued in between their hands. This activity helped the children to understand that they need to use soap and water to clean the dirt and germs off their fingers.

As the children continued to learn about personal hygiene and washing their hands Miss Briohny placed out three laminated pictures of hands on the tables along with some white board markers and a couple of sponges. Using the white board markers the children drew on the hands representing dirt, once they were finished drawing they used one of the sponges to wipe off the dirt. This was a good activity as it allowed the children to reuse the activity, cleaning the hands over and over again. They also had to take their time as they had to scrub the sponge across the hands until they were clean.

# WASHING HANDS

# GROUP TIME

During our group time this morning Miss Briohny and the children learnt about hand hygiene and how to wash our hands. First we sang a song called “10 dirty fingers”, then we talked about when we need to wash our hands, for example before lunch, once we come inside, after wiping our noses and messy play. We also talked about how we need to block our cough so that we don’t spread our germs to our friends. The children remembered that they need to cough into their elbows.

Using paint and plastic gloves Miss Briohny showed the children the way to wash their hands. The paint represents the soap we use. First Miss Briohny placed some glue in the middle of her hands before rubbing them together. Once she had rubbed her hands together, Miss Briohny showed the children how they need to rub the back of their hands as well before rubbing in between their fingers and all over their thumbs. By using paint the children were able to clearly see the effective application of soap to remove all the germs off their hands.

# Analysis of learning

LEARNING OUTCOMES ACHIEVED: LO1, 1.2, LO2, 2.1, LO3, 3.1, 3.2, LO4, 4.1, 4.2, 4.3, 4.4, LO5, 5.1, 5.3

# Reflection of the day

Today the children continued learning about hand hygiene by creating clean and dirty hand art. They also practiced cleaning their hands by drawing on laminated hands and using a sponge to wipe them clean. Expressing creativity the children formed germs using playdough, googly eyes and pipe cleaners. During our group time we learnt how to wash our hands and the importance of blocking our germs.
