Recreating the Olympics in the Jellyfish room

What a fun and exciting morning Miss Taylah had planned for us. This morning Miss Taylah had set up a some fun physical activities for us in the yard. There was hurdles for us to do some jumping over, there were jumping sacks and hoops for us to try and jump in and follow the pattern. Miss Taylah had also made some weights out of pool noodles.

As the Olympics only happens once every four years, we decided to get the children involved and work of our physical health and wellbeing.

Once it was all set up and ready to go, Miss Jade opened up the door and we were off to go explore.

Straight away the children went over to the area where Miss Taylah had set up the weights, the jellyfish children picked up the weights and looked at them a little funny, unsure on how they worked. Miss Zoe done a small demonstration, this lead into lots of fun. **Harvey, Evan, Archie, Amal, Weixuan, Aria, Eleanor** and **Ethan** used their big muscles to use the weights in the correct way. They had so much fun doing so.

Amelia, Archie and **Harvey** showed a great interest in the hurdles that had been set up, Miss Taylah showed them how it worked and they clicked straight away and knew exactly what to do. At the start it was a little high for them but they worked out how to do it by using their problem solving skills.

Hannah, Ariana and **Isabella** weren't overly to sure about all the physical activities at the beginning, they enjoyed watching from a far for a bit, once they felt comfortable, **Ariana** and **Isabella** started to slowly join in on the fun. **Weixuan** chose to show off his balancing skills along the coloured buckets that were also set up.

Miss Taylah had made up some little gold medals for a bit of fun. After we had a bit of fun with all the Olympic activities, Miss Taylah handed out to some of the children the little gold medals and stood them up on the podium **Harvey, Evan** and **Amelia** stood up their strong with smiles.

Exploring the children's physical health and wellbeing through physical activities allows the children to develop their gross motor skills, fine motor skills, concentration and thinking skills.

We can't wait to continue exploring fun activities around the Olympics for the week!

Inside Play

Today was a busy day in the Jellyfish room, with a full class all the children had so much fun playing around with one another. Before we recreated our Olympic games the children got the opportunity to explore inside our room.

Aria loves riding around the classroom on the lady bug on wheels. She always has the biggest smile on her face when she rides around the room on it.

Ethan, Weixuan and **Harvey** loved playing with the train tracks Miss Jade pulled out, **Harvey** and **Weixuan** stuck the track pieces together so they were able to push the little trains around. They were all making different sounds as they pushed the train around the train track.

Archie and **Amelia** loved playing on the wooden obstacle course, playing peek-a-boo with one another as they would peek through the tunnel part.

Amal loved reading 'Monkey and Me' with Miss Zoe she would point to the monkey every time it would appear in the story.

Hannah and **Isabella** were both happy exploring the entire classroom playing with many different toys with each other and their fellow friends.

Analysis of learning

Fine motor skills	Health & wellbeing
Gross motor skills	Cognitive development
Physical development	Problem solving
Communication	
Non-verbal communication	
Connectedness	
Building strong relationships	

Reflection of the day

The children had a really good day today in the jellyfish room. They had a lot of fun exploring the physical activities that had been set up outside. They showed great interest in each of the different activities that had been set up.
