Construction Painting

Continuing on with our interest in construction, Miss Taylah prepared some different shades of brown paint and some little construction trucks. Miss Taylah sat down at the table with groups of three children, they each had a piece of paper and then a construction truck. They used two different types of construction trucks in the three different shades of brown.

Each of the construction trucks were dipped into the paint and the children maneuvered the trucks over the paper, watching as the tracks drove through the paint, leaving tire marks all over the paper.

Throughout this experience the children were able to recognize the construction trucks from the book we had read through yesterday. The children concentrated and showed a great interest in the way the wheels tracked across the paper. They also focused on their fine motor skills and creativeness.

Indoor Play

Today for indoor play we had multiple choices of activities and toys to play with.

Miss Jade sat down with **Amal** and played with the connector blocks, Amal liked to put the pieces together we made a big long track. She was so proud of masterpiece she had created all by herself.

Hannah wanted Miss Jade to read a book to her she read "All about the Ocean," this book was about all the commotion that happens in the sea, we like to see all the visuals and pictures. **Harvey** wanted to see what Miss Jade was reading so decided to join in as well. **Harvey** liked the big shark pointing at it.

Ayden and **Olivia** particularly enjoyed our home corner set up they both had fun making adventurous pretend meals, **Ayden** made a big meal and was eating it with a funny grin on his face. **Tiffany** also wanted to see what was going on and played along them making meals of soup.

Ethan is good when it comes to the wooden blocks, he used his fine motor skills to stack the blocks and try and make it as high as he can.

Tabitha showed a great interest in the babies today she wanted to try and change them and showed us her doll she brought in.

Jacqueline and **Isabella** were very interested in the wooden puzzles that Miss Jade provided they wanted to do the "animals," and tried to put the correct puzzles in the right order. Well done girls.

Outdoor Play

After completing our construction painting that we did with Miss Taylah this morning, we decided to let the children have a run around before lunch today!

The Jellyfish children lined up at the door patiently waiting for Miss Zoe to let them out. **Jacqueline** was a little hesitant to play outside this morning so she stayed inside with Miss Taylah and helped get the beds ready!

Ayden and **Harvey** had so much fun playing on the obstacle course they would climb up it as fast as they possible could, then slide down the mini slide. They repeated this process multiple times!

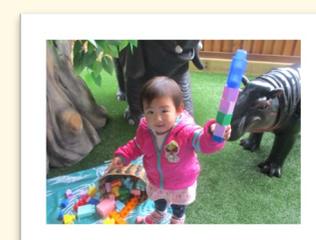

Tabitha and **Amal** showed a great interest playing with the animals. **Tabitha** loved playing with the little animals that were set up on the table outside, she especially loved the baby cows. **Amal** loved playing with the hand puppets, she would place them on her hand and chase Miss Zoe around.

Tiffany and **Hannah** loved playing with the building blocks they each would stack the blocks together as high as they could until it fell over.

Olivia and **Isabella** loved playing on the mini bikes we have in our yard, they both road around the yard smiling and giggling the whole time.

Ethan really enjoyed making food for Miss Zoe he sat nicely at the little picnic table and gave Miss Zoe all this different food so she could pretend to eat it.

Analysis of learning

Fine motor skills
Hand-eye coordination
Fine motor skills
Gross motor skills
Manoeuvring of objects
Connectedness

Building relationships
Recognition

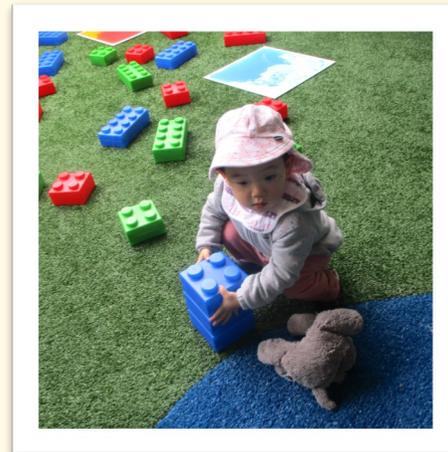

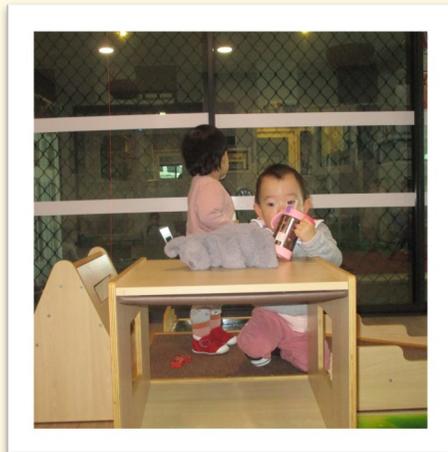

Reflection of the day

The Jellyfish children had an amazing day, with our new assistant Miss Jade in the room the children have been building a very strong connection with her, which is amazing to see!

They all had so much fun exploring inside and out playing with all the different toys as well as participating in our construction art work activity.
