Spontaneous play!

Today the starfish and seahorse children joined us here in the jellyfish room as there was a few children away. The children had so much fun and really seemed to enjoy being combined together in one room and exploring the different toys and books to play with. **Tiffany** especially seemed to like having the babies from the starfish room join us today she loved playing with **Arden** over in home corner and with **Jonathan** and the blocks after having a bit of a play with the babies she walked over to play with the plastic animals with miss Aura and would give her educator a lot of cuddles and even had a few tickles. **Harvey** enjoyed playing with the toy dinosaurs with **Ethan** over in book corner as well as playing with the wooden cars, plains and trucks the boys had a lot of fun playing together after playing together **Ethan** went and had a play with some blocks and **Harvey** went and played over in home corner pretending to eat the fake food.

After a little while **Zayden** and **Abigail** joined us from the seahorse room and had some fun reading books and climbing on the obstacle course as well as playing in home corner and playing with the different puzzles and blocks as well as the plastic cars and boats.

Eleanor had fun reading the Peppa pig book and pointing at the different pictures on each page after going through the book she seemed to enjoy playing with the puzzles and plastic animals.

Arden enjoyed playing in home corner and exploring the room and making lots of noise and would babble to the educators in the room with excitement she loved the toy animals and all the blocks and books and tried to follow and join in as much as possible with the older children.

Jonathan enjoyed playing with the blocks and the plastic number crocodile blocks as well as joining in with **Arden** over in home corner he would get so excited and make lots of noise with his friend he really enjoyed himself today.

Archie had a lot of fun today playing with his friends and interacting with the educators in the room he really seemed to enjoy playing with the blocks, playing on the obstacle course and reading books as well as playing over in home corner.

Painting with Miss Aura

Today the children enjoyed doing a painting with Miss Aura using blue and purple paint .

Ethan was the first one to have a go at doing some painting today he really seemed to enjoy painting whatever he liked on the piece of paper and would use a dabbing motion as he painted he would stop a couple of times to babble to miss aura about what he was painting. After **Ethan** finished painting **Harvey** was very eager to jump in and have a go and enjoyed dipping the paint brushes into the paints and then either dabbing or stroking the brush across the paper he really seems to enjoy doing artwork. **Archie** was next in line to have a go at painting he was very eager to get started and needed a little bit of help holding his piece of paper still as it would move as he moved the paint brush on the paper after a little while he thought it would be fun to paint the tips of Miss Auras fingers or to decorate the table top but with a little bit of redirection was back to painting away on his piece of paper. After **Archie** had finished doing his painting **Tiffany** was the last one to have a go she really seemed to enjoy painting and would tell Miss Aura what colors she was using while she was painting and babbled about what she was painting she seemed to enjoy doing a dabbing motion the best while painting and also needed a little bit of assistance to hold the paper still.

Reflection of the day

Today was a good day the children where happy and enjoyed themselves we stayed inside as it has been raining on and off so it was to wet for the children but we had the children from starfish and seahorse room combined with us as there wasn't many children here today and the children seemed to really enjoy this . We did some painting and had a lot of spontaneous play and children had a lot of cuddles and one on one time with the educators in the room it was a nice peaceful day today here in the jellyfish room.
