Construction Sight Sensory Experience

What a fun and very exciting experience Miss Jade had set up and prepared for us this morning. Miss Jade had organized for our cook Miss Julie to make us some dairy free biscuits and jelly for today's experience.

Miss Jade had crushed up with the biscuits and mashed up the jelly, she had set up the tray with logs, car tracks, construction trucks, dress ups, hammers and more. Once the experience was set up, the children came over to investigate, at first they weren't overly sure on the experience as there was so much going on, **Archie** and **Olivia** were the first to try the orange jelly, once they had a taste of the jelly, they got excited and started to exploring everything in the tray. **Chloe** was still a little unsure and watched from afar, she really enjoyed the construction hats. **Weixuan** at first enjoyed some cuddles with Miss Taylah while exploring the hammers and hats. **Tiffany** was loving all the different taste and textures within the tray. **Harvey** had a ball, exploring every different thing in the tray, as he explored, he was babbling along to all of his friends and educators. **Ayden** wasn't sure about it all at first, as there was lots going on, but once he was feeling comfortable with his friends and educators by his side, he dived in and explored. **Ethan** came in a little bit later this morning but came in just in time to play in the tray, he was so excited to dive in and have some fun with his friends.

Throughout this experience, the children were able to get in touch with their five senses, taste, touch, sight, sound and smell, we talked about all the different objects that were inside the tray from the edible dirt (Crushed biscuits) and edible rocks (Jelly) to the logs, trucks and dress ups, the children engaged with one another throughout the experience, through verbal and non-verbal communication.

Indoor Play

We have had a very fun morning Miss Jade sat down with **Olivia** and we played with the wooden “safari animals.” **Ethan** was wondering what we were building so decided to stack some blocks on top of one another, he liked the lion and jaguar.

Jacqueline was happy to play with the baby dolls and try to dress them in pretty clothes that they had. She even wrapped them in blankets.

Ayden was so excited to have Miss Aura in our room and they started to play “peek a boo,” he would hide and run to find her.

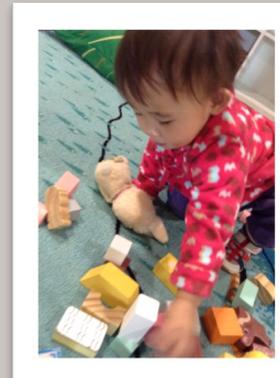

As we have so much construction activities going on **Chloe** wanted to have a go at the construction puzzle. She was good at trying to put them in the right order.

Tiffany showed so much interest in all our activities this morning and particularly wanted to try o the construction hats, she looked so adorable in them.

Harvey and **Archie** had a good time playing with the “tool set box,” they used all the equipment to show what they were used for the hammer was a favourite and used it to hammer the pretend boulders in our trough.

Eleanor was happy to play in the home corner where she showed Miss Jade her “hot dog,” meal she made, Miss Jade said it was “yummy.”

Weixuan thought it was exciting to play with the assorted diggers and trucks he liked how they are able to do multiple things such as using the digger to pick up stuff.

Connectedness

Sense of belonging

Hand-eye coordination

Gross motor skills

Concentration

Reflection of the day

Today was an exciting, fun day in the Jellyfish room, with the making of our jelly construction site all the children really seemed to enjoy themselves today!

All the children got to explore the classroom and play with many different toys as well as getting to have a run around outside!
