

Starfish daily story

Friday, 28th August 2021

With Miss Megha, Miss Matisse
and Miss Alaura

Where's the Rainbow fish?

For another one of our sensory experiences this morning Miss Matisse and Miss Alaura made a rainbow fish sensory bag with glitter and sequins as well as a big picture of the rainbow fish with water so the starfish could push the glitter and sequins around the bag to match the rainbow fish. **Harlow** loved playing with the sensory bag pushing the sequins up to the top of the bag and watching them slowly fall down, making sure to use it as much as she could. **Madeleine** was so excited to have a turn playing with the sensory bag she was screaming with excitement to Miss Alaura and Miss Matisse with a massive smile on her face. Arden was so happy she got straight up and walked to the doors ready to feel the sensory bag slapping the bag to make the water and glitter in the bag splash up. As she did that she looked to Miss Alaura and Miss Matisse smiling and laughing so hard. What a great day we had!

Learning outcomes: 1.1, 1.2, 2.1, 4.1., 4.2

Our sensory tray!

What a fun morning it has been on our book week dress up day! Miss Alaura decided to set up the yard with the a sensory tray filled with streamers and sea animals for the babies to play in and explore. **Ar-den** was the first to walk up to the tray looking in it and seeing what she could find before sitting down and feeling through the streamers and picking up the sea animals. Not long after **Norah and Hailey** sat in the tray feeling around the tray and playing with the different materials in the tray. **Madeleine** was happy to sit next to the tray playing with the sea animals and throwing the streamers up in the air. Felix was a bit hesitant about the tray not knowing what it was but after seeing his friend Ar-den playing in it he went over to the tray and started playing in it too.

Learning outcomes: 1.1, 1.2, 2.1, 4.1, 4.2

Indoors and outdoors!

Our indoors and outdoors were great fun today as children loved to do indoor-outdoor play experiences. Ms Alaura set up outside as a sea theme in which she put some sea animals on the walls, blew lots of bubbles, swirls and a lot more things which children excitedly enjoyed a lot.

Harlow and Arden tried to follow bubbles and pop them whereas **Felix** walked around and carefully observed the whole environment. **Norah and Maddy** found their interest in stacking rings activity and soon joined their peers in outdoor play.

Use of cognitive skills

Reflection of the day

It was such a great day today where we all loved to dress up as Rainbow fish and enjoyed our Ocean themed outdoors with some rainbow swirls, sea animals, sensory play and bubbles. Children enjoyed the time with their peers, strengthening their peer-bonding's.
