# Spontaneous Painting

To start off our busy week we let the children participate in some spontaneous painting for our arts and crafts activity. Most of the children were extremely eager to have a go at completing their artworks.

**Archie** and **Aria** were extremely excited to use the pom poms to paint on their piece of paper. They would each dab around the paper covering the whole cut out until it was completely covered. They both really enjoyed this activity.

**Tabitha** and **Amelia** were up next to complete their artwork, **Amelia** and **Tabitha** both loved using the different colours to cover their artworks. They would swap colours so they would have both red and blue on their artwork.

**Daniel** and **Amal** were a little unsure on how to paint with the pom poms, but with a little help from Miss Zoe they were both able to complete their artworks to the best of their abilities.

**Ashlyn** wasn't keen to paint with the pom poms, so Miss Zoe gave her a paint brush to complete her artwork. Once she was given the paintbrush she gained a lot of confidence to use her fine motor skills to complete her artwork!

# Inside Play

Welcome back to majority of our friends, we missed you all so much last week! This morning we had a combined room with the Seahorse children and decided to have a fun spontaneous morning, to get back into having some fun after being at home for a week. As last week was very quiet Miss Taylah, Miss Zoe and Miss Jade rearranged the room a little bit and swapped over some of the toys for a bit of a change.

**Amal** and **Daniel** showed a great interest in the hair dressing equipment, **Amal** was roleplaying within herself, she grabbed one of the baby dolls, laid it on the table and pretended to brush, cut and blow dry its hair. **Daniel** was intrigued by all the different hair dressing equipment pieces that were in the basket, he went through each of them to find which one he liked the most. **Archie**, and **Amelia** found the basket of musical instruments, they made lots of music, which made them very excited and happy. **Ashlyn** was very excited about the new stacking tower, she was running around the room giggling after stacking it up very high with Miss Megan. **Tabitha** explored the puzzles while **Ivy** and **Owen** picked out some of the new books off the book shelf. **Daniel** was zooming around on the little lady beetle bike.

# Outside Play

After having some fun inside, it was time to get out sunscreen on and head outside and explore. As we are luckily out of the state wide lockdown, it was so lovely to have most of our friends back with us. While we were very quiet last week, we had the chance to rearrange the outdoor area, and it looks so inviting and new.

**Tabitha, Archie, Aria, Amelia, Daniel and Amal** had lots of fun exploring the new home corner area, as its faced in the middle of the yard, the children were able to communicate with each other through each of the opened windows, Miss Taylah spoke to the children, pretending as if she as in a shop, role playing with the children. She had asked **Amal** if she could buy some vegetables, **Amal** went through the basket of foods and found some vegetables for Miss Taylah. **Aria, Archie, Daniel, Tabitha and Amelia** babbled along to each through this role play experience.

**Tabitha** and **Amal** checked out the new location of the car frame, they danced along as Miss Taylah sung the wheels on the bus. **Amelia** took some time to sit down and read through one of our new books about going to the potty. **Daniel, Amal, Tabitha and Archie** used the magnifying glasses to explore around the yard.

# Analysis of learning

Fine motor skills

Gross motor skills

Connectedness

Roleplay

Building strong relationships

Communication

Non-verbal communication

Sense of wellbeing

Creativeness

Safe and secure

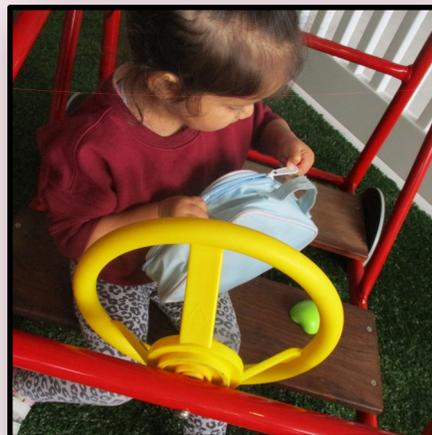

# Reflection of the day

It was so lovely to have majority of our friends back this morning, as we had a lot away due to the state wide lockdown. Our friends that were away came back happy and settled. We have a combined room with the Seahorse children and the children played together and alongside each other nicely. They showed that they were building relationships with one another through play and some verbally communicated with each other.
