## Soapy Foam!

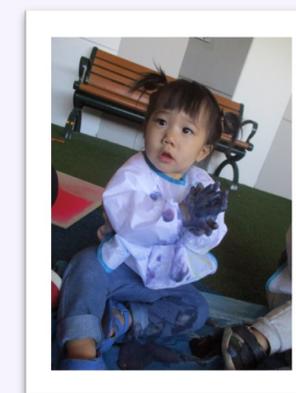

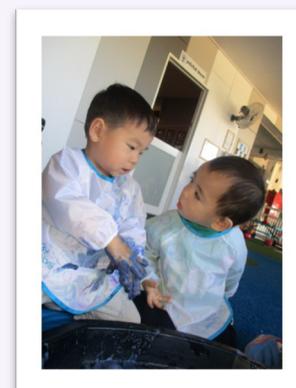

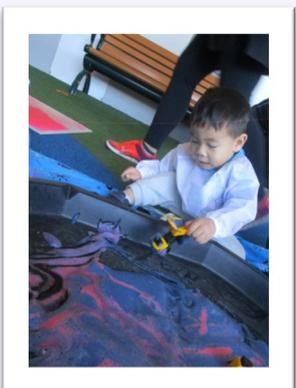

Another fun science experience Miss Taylah had set up for us this morning! Coloured soapy foam. While we enjoyed our yummy morning tea, Miss Taylah whipped up 2 batches of thick foam made out of dishwashing liquid and food colouring. Miss Taylah set the experience up with some construction cars and had the art smocks ready to go as she knew it was going to be a very messy play.

As each of us headed outside, we each got our art smocks on ready to get messy. The children at the beginning weren't overly sure about the texture at first, but after Miss Taylah started playing in it, they started to explore. **Harvey, Amelia, Amal, Weixuan, Ethan, Olivia** and **Evan** were getting deep into the foam, feeling the smooth, bubbling texture. They pushed the little construction cars around the tough tray, picking up the foam and moving it around, creating little piles.

**Hannah, Ariana** and **Archie** weren't overly to sure about this sensory experience, they watched on as their friends explored for a little while, then hopped up to go explore the other areas set up in the Jellyfish yard.

This group experience allowed majority of the jellyfish children to communicate with one another, engage and get more involved in each others interests. The children enjoyed exploring the different texture of the foam.

# Outside Play

Today we had such a busy day in our outdoor yard. **Weixuan, Amal** and **Amelia** showed Miss Jade their pretty outfits they had on. **Amal** had a “cloak” on while **Amelia** had a pretty “Scottish outfit” and **Weixuan** had a “mermaid one.” We love our “dress ups” area.

**Harvey** and **Evan** were adventurous and had a turn on the “obstacle course,” they were very careful not to fall off and had great balancing techniques.

**Eleanor** absolutely loves bubbles and she was having a turn at blowing them with Miss Zoe, way to go **Eleanor**.

**Ethan** was just happy to play in our “home corner,” and make pretend meals for his friends.

**Olivia** and **Isabella** were playing with Miss Jade and building the biggest tower, **Isabella** showed lots of patience and was very good at stacking the blocks on top of one another.

**Hannah** was loving our metal car in our yard and was busy driving in the car. Even her “dog” was in the car too.

**Ariana, Archie** and **Aria** were more interested in exploring our whole yard today from playing with the assorted blocks and books to our obstacle course.

## Inside Play

With an extremely busy and entertaining morning full of science creativity, dress ups outside and heaps of toys the children had so much fun today!

The children had a lot of fun playing inside this morning waiting for the rest of their Jellyfish friends to arrive, **Amal** was cooking up a storm in the home corner today, making heaps of different meals for all her friends especially **Archie!**

**Olivia** also had heaps of fun playing in the home corner today, showing Miss Zoe all the different foods she was making, she had an amazing day today!

**Weixuan** and Harvey love riding around the lady bug on wheels, both giggling as they raced around the classroom. They both had so much fun!

**Aria** and **Evan** loved reading stories with Miss Jade this morning, flipping through the pages pointing to all the different illustrations.

Whilst **Hannah** and **Amelia** loved exploring all the different toys that we have to offer in the Jellyfish classroom!

communication

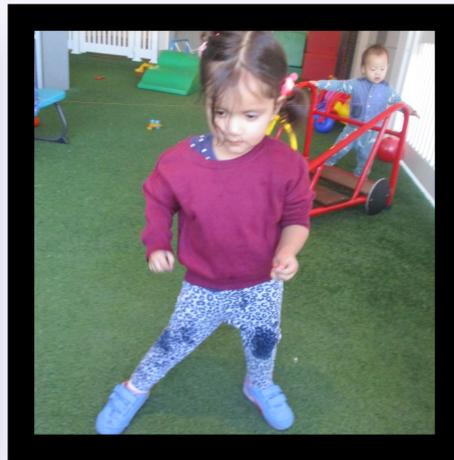

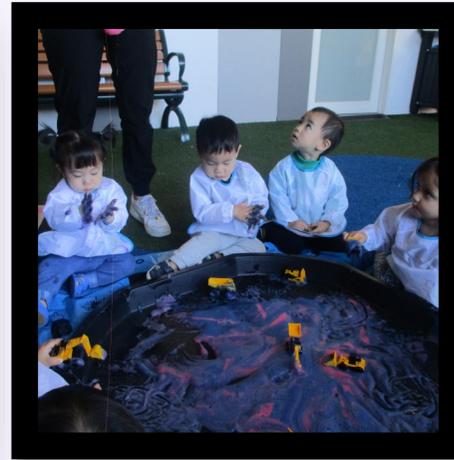

# Reflection of the day

What a fun day the jellyfish children had, they enjoyed the sensory science experience Miss Taylah had set up this morning, as well as being able to explore the fun areas that had been set up. The children communicated and engaged with one another throughout the group experience.
