

Jellyfish's Daily Learning Story

24th of August 2021

Indoor Play

This morning we had plenty of fun in our Jellyfish room. We were able to do lots of spontaneous activities.

Hannah and **Isabella** headed straight for our “book corner.” They chose a book called “Tap, tap.” this book was about how we use different musical instruments and how to sound out words.

Ethan decided to play with our stacking blocks and learnt how to make many creations.

Amal has been really interested in our baby dolls and loves to dress them and wrap them up in blankets and give them lots of cuddles, **Amelia** wanted to join in as well and asked for a baby too.

Olivia and **Amal** were so good at interacting with one another and able to share the wooden coloured blocks stacking them on top of one another till there were no more left. They were so proud of their achievements.

Harvey wanted to play with our musical instruments, the rattles were his favourite today. **Evan** preferred the mini shaking eggs showing Miss Jade what sound they make.

Aria played with our connect blocks she was so nice and tried to share with **Weixuan**.

Amelia and **Ariana** were happy to explore all areas of our room.

Outdoor Play

The children were extremely excited to explore our outdoor playing area, Miss Zoe asked them to all wait at the door so they could be let out. **Harvey** and **Olivia** clapped their hands in excitement as they knew they were going to be let outside any second.

As soon as Miss Zoe opened the door **Weixuan**, **Amal** and **Olivia** raced to the rocking horses. Using their legs to push themselves back and forth, each of them were able to use the rocking horses quite easily. All three of them were super excited to play on these toys today!

Amelia and **Isabella** made their way to the toys that are connected to the wall, they were quite fond of the xylophone that sits on the wall, hitting all the different colours with the stick to hear all the different sounds that it makes.

Hannah and **Ariana** loved playing on the car climbing frames that are around our yard, both climbing inside the frame so they could use the steering wheel and turn it both left and right.

Ethan and **Aria** loved playing on the foam obstacle course, using both their legs and arms to make their way to the top of the obstacle course. They both love playing on the obstacle course, both with massive grins on their faces.

Evan and **Eleanor** loved playing with all the different toys that were had scattered around the yard, **Evan** loved playing with the building blocks whereas **Eleanor** also enjoyed playing on the rocking horses.

Painting woody's sheriff badge

As this week is book week and we're getting ready for our fun dress up day on Friday, Miss Taylah prepared a little painting experience for the jellyfish children.

Amal, Amelia, Aria, Harvey and **Evan** were the only children interested in today's painting experience, the other children were happy exploring the indoor and outdoor environment.

Miss Taylah had printed and cut out some little sheriff badges for us to paint, just like woody off of Toy Story. This Friday Miss Taylah, Miss Zoe and Miss Jade are all dressing up as characters from the movie/book Toy Story, we've decided to decorate the jellyfish room with all things toy story and getting the children to also help out with doing some paintings.

Amal and **Evan** both used their hands to hold down the badge while they held the paint brush in their other hand, they moved the paint around as much as possible to cover their badge. **Amelia** and **Aria** both pushed down as hard as they could with their paint brushes to create blotches of paint across their badges. **Harvey** held his paint brush at the top and slowly maneuvered the paint brush around his badge, covering it up as much as he could.

Analysis of learning

Gross motor skills
Connectedness
Sense of belonging
Building relationships
Fine motor skills
Role play
Communication

Reflection of the day

We had a bit of a busy morning with being inside until the rain stopped, but once the rains topped the children really enjoyed being outside. Only 5 of the jellyfish children were interested in doing the painting today but the other children were happy to explored the toys.
