# Group Car Painting

This morning's painting experience, involved cars, paint, lots of paper and all of our friends. Miss Taylah prepared the outdoor tables with A3 paper by sticking it all down with sticky tape, she got 7 different coloured paints ready and 7 cars to go with the paint. **Harvey, Evan, Ayden, Aria, Olivia, Eleanor** and **Ethan** were the first children to sit down at the table, ready with their art smocks on. Miss Taylah handed each of them a car that was dipped in paint and let them push the cars over the paper. They were all amazed, watching as the paint transferred onto the paper, leaving the car tracks. Throughout the experience the children continued to swap their cars around with each other, this allowed them to create their own rainbow tracks right in front of them. **Tiffany, Chloe, Jacqueline** and **Weixuan** had a turn next when some of their friends were finished.

After first they all weren't 100% sure on how to implement the experience, Miss Jade and Miss Taylah pushed a couple of the cars around the paper to show the children how it worked. Each of the children understood really quickly and started to push the cars around. Throughout this experience, Miss Taylah and Miss Jade talked about each of the different colours they could see, as well as the sounds cars make. **Evan** was showing his educators how clever he is by saying the colours, red, yellow, blue and purple. **Harvey, Eleanor, Aria** and **Ayden** were repeating the sounds that Miss Taylah and Miss Jade were saying about the cars "Beep, Beep", "Broom, Broom", goes the children.

This group experience allowed the children to create their art work, alongside each other, allowing them to become social with each other and communicate through verbal and non-verbal communication.

# Inside Play

What another exciting morning we have had in our Jellyfish room.

**Jacqueline** was so happy to play with her friends she was very curious watching **Harvey** play with the musical instruments that she wanted to join in too. **Chloe** began shaking the rattles in the background.

**Aria** had the wooden shapes blocks placed on the table by home corner and started to stack the shapes on top of each other.

**Archie** was so funny today he had all the hair products out for all his friends to play with. His favourite was the hair dryer pretending to dry his hair.

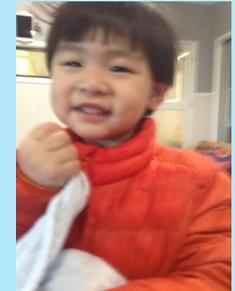

**Ayden** and **Olivia** were so engaged in our home corner area. They absolutely loved to make each other meals pretending to cut and slice different food items.

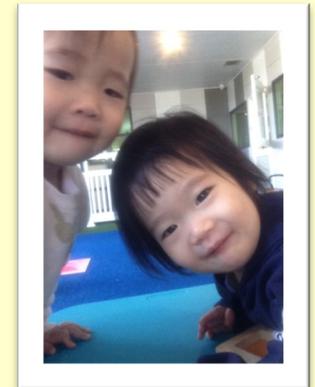

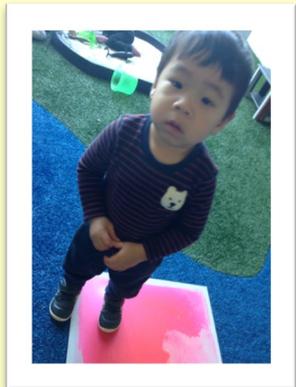

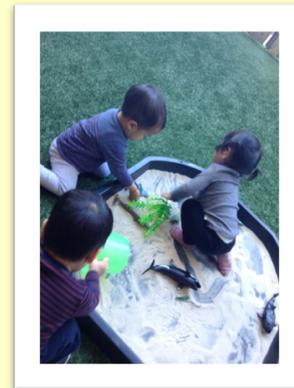

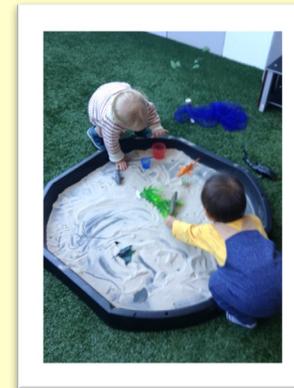

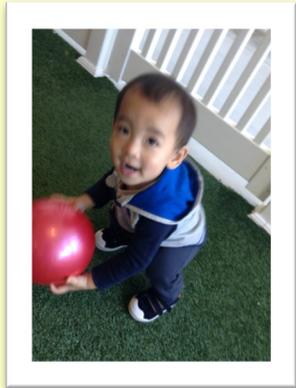

**Ayden** and **Ethan** were so good interacting with each other and playing with our toys and sharing with each other they liked the wooden toy where you could twist and turns the wooden circles.

**Weixuan** loves Miss Zoe and he was playing with her and showing her the rattle from our musical instruments with the biggest smile.

**Evan, Eleanor** and **Tiffany** were excited to explore all of our room and playing with everyone today from the wooden blocks to home corner and even having a go on our obstacle course.

## Outside Play

During outside play, the children ventured off to go explore the activities and areas that had been set up. **Jacqueline**, **Eleanor**, and **Weixuan** had fun exploring the coloured puzzles that were set up on the table. They each took turns in taking the puzzle pieces apart and then put it all back together. **Harvey** and **Weixuan** was running around and dancing to all of the music and **Ethan** was kicking and throwing the ball around with his friends **Max** and **Mason** from the Seahorse room! **Evan** sung along to the wheels on the bus while steering the steering wheel inside the metal car frame. **Ayden**, **Aria** and **Archie** took a big interest in the under the sea sand tough tray that Miss Zoe had set up this morning, they explored all the different sea animals that they could see and explored the seaweed that was also in there.

A reminder that tomorrow is  
RED NOSE DAY and we are  
asking the children to come  
dressed in their PYJAMAS  
again to help raise awareness  
for RED NOSE Day.

# Analysis of learning

Creativeness  
Sense of belonging  
Communication  
Recognition  
Colour recognition  
Fine motor skills

Gross motor skills  
Building strong relationships  
Hand-eye coordination  
Cognitive development  
Non-verbal communication

# Reflection of the day

The children in the Jellyfish room had a really lovely and settled day. They enjoyed the group painting experience. Being able to sit by each other and observe what each other were doing and how they were doing things. The routine transitions are also going really well in the room.
