Float & Sink Experience & Washing Trucks

To continue with our science week, Miss Jade decided to do an activity to see what things float and what things sink? Miss Jade was so excited to do this with all of our Jellyfish friends. Miss Jade had collected a numerous amount of items from our store room, we had leaves, shells, wooden shaped cotton threads, pom poms, some mini trucks and diggers and a few other little nick knack's. We had 3 different containers, two with water and the other with our bits and pieces.

Archie wanted to have a go first and he put the truck in. “**Archie** did that sink or float?” asked Miss Jade, he was so excited. **Harvey** and **Aria** quickly wanted to have a turns as well. **Harvey** threw a couple of pom poms in and they floated, he started to grab some out and began squeezing them. **Aria** had some shells and noticed they sank really quickly. This caught **Tiffany's** attention and she soon followed by placing in pom poms.

Weixuan and **Chloe** sat by Miss Zoe observing what was going on. They too had a turn and placed a couple of buttons in.

Ethan and **Evan** sat by Miss Jade curious with all the excitement going on. **Ethan** put in some buttons, shells and even wanted to see if the balls would float or not. **Evan** put in a lead and then wanted to try a button.

Miss Jade asked **Olivia** and **Jacqueline** if they wanted to have a go, at first they didn't show interest but then both grabbed a pom pom and threw it in the container.

Miss Jade then transferred the water into a large tough tray and added in some soap to make some bubbles, she added in the min diggers and trucks and also some small sponges. The children quickly dived into the tray washing all the trucks and diggers and even started to clean the tables and chairs. They all had so much fun, especially splashing the water around, make extra bubbles.

Safari Sandpit

Miss Taylah had set up a fun little safari in the tough tray with sand, leaves, animals and the coloured magnifying glasses. **Evan** and **Harvey** raced straight over to the tray to start exploring. **Harvey** grabbed the magnifying glass and started to look closely at the sand and animals in the tray. **Evan** was picking up each of the animals asking Miss Taylah what each of them were called. **Chloe** joined in on the fun and was looking through the yellow magnifying glass looking at the big orange tiger. **Eleanor** was using the red magnifying glass to make patterns in the sand. **Archie** and **Weixuan** sat by each others side and using the green magnifying glass and the tea cup from home corner, looking closely at the animals and pouring the sand around the tray. **Jacqueline** used the blue magnifying glass to get up and close to the animals, she got excited when she could see that everything was blue.

The jellyfish children had fun connecting together through this shared experience, communicating and sharing their thoughts and ideas.

Analysis of learning

Fine motor skills	Fairness
Connectedness	Sense of belonging
Role play	Verbal communication
Creativeness	Non-verbal communication
Problem solving skills	Independence
Mathematics	Imagination
Building relationships	Physical wellbeing

Reflection of the day

The jellyfish children had a really good day today, they really enjoyed the planned experience with miss jade and enjoyed the floor activities also.
