## Cooking Experience

Miss Julie came into our Jellyfish room this morning and asked if we wanted to make our own afternoon tea as a big group which was yummy blueberry muffins. Miss Taylah said of course and got all the ingredients ready. We all gathered around the table and waited patiently for a turn of pouring in the ingredients and mixing them all together. We first started off with our muffin mixture, Miss Taylah poured some into the measuring cup for each of the children to have a turn, all of the children were very good at pouring in the mixture, not one bit of muffin mixture was spilt. We then moved onto the water and oil, Miss Taylah poured in the water, as it was a little hard to share the pouring. **Ayden, Amelia** and **Olivia** helped Miss Taylah pour in the oil by using a teaspoon. After the oil and water was in with the muffin mixture it was time to put the apple sauce in, which replaces the egg. **Evan** and **Tiffany** helped spoon it in.

Once all the ingredients were in the bowl, it was time to grab our whisk and start mixing all the ingredients together. **Tabitha** started off the mixing and was doing such a good job at it, **Amelia** was next and at first the mixture was very sticky and was hard to move the whisk around, but with a little bit of help from Miss Taylah she was able to mix it around. **Harvey** and **Archie** were both able to easily mix the ingredients around, trying to go as fast as they could without making a mess. **Ayden** and **Chloe** both gave Miss Taylah a small little smile when using the whisk, they were both very happy throughout this experience. **Evan, Aria, Tiffany** and **Olivia** were also very good at mixing the ingredients together, they were all very proud of themselves when mixing it together, there wasn't much mess at all to clean up!

experience

## Slime play

For our last day of Science Week, Miss Taylah decided to make her own slime for the children to play with. This sensory activity was a great way for the children to feel the different textures of the slime. They all really enjoyed this activity as it was a brand new experience for them to participate in!

**Aria** was super eager to participate in this activity, sitting at the table patiently waiting for Miss Taylah to give her some slime to play with. Straight away she pulled it apart seeing it extend longer and longer.

**Evan** and **Archie** also loved the slime pulling it apart just like **Aria** so they could see the slime extend further and further. They both loved this activity!

A few of them weren't so sure what the slime actually was, **Chloe**, **Olivia**, **Eleanor** and **Tabitha** were a little held back from touching the slime as it did have an unusual feel to it. But once they all touched it and had a little play around with it they grew more confidence to keep playing with the slime.

**Harvey**, **Tiffany**, **Ayden** and **Amelia** weren't afraid to play with the slime at all, each using their fingers to feel the different textures. The slime was a little sticky so they would all pull the slime up as high as they possibly could until it couldn't go up no more!

All the children had heaps of fun for their last day of Science Week!

# Outdoor Play

We have had a great time outdoors. There were so many activities set up for all of us. We had a “construction set up,” an “obstacle course,” “our “home corner with our variety of pretend food,” and also some “musical instruments.”

**Chloe** and **Evan** chose to play with the streamers twirling them around and up and down.

**Eleanor** and **Tiffany** wanted to have a turn on the metal car, they were so good at sharing with who wanted to be the driver, **Harvey** joined them jumping at the back of the car.

**Ayden** had such a fun time getting chased by Miss Zoe around the yard. He had the biggest smile.

**Tabitha**, **Archie** and **Chloe** had a turn on the obstacle course going up and down and over it.

**Tiffany** and **Amelia** enjoyed riding the bikes around they even put on the construction helmets.

**Aria** had fun playing in the home corner she even showed Miss Jade what she was making and offered her some pretend “pies,” Thank you **Aria**.

**Harvey** and **Olivia** had a turn in the sandpit, they liked to make “sandcastles.” **Olivia** had fun on the big slide too.

# Reflection of the day

Today has been such a great day and we have been able to do a "sensory activity," to finish off our "science week." and also a cooking experience which all our children have enjoyed doing and been apart of. We have also been good at learning to share our toys within the room.
