

# BTP DAILY STORY

## WEEKLY TOPIC: ON THE FARM

STARFISH, SEAHORSE, JELLY-FISH, STINGRAY, DOLPHIN, SHARK AND WHALES CHILDREN COMBINED IN ONE ROOM.

# CHICK IN EGG

The children were combined in the Dolphins room this morning and joined Miss Briohny to make some Chickens in eggs. Taking turns in groups of two the children covered their chickens with glue before pasting on pieces of yellow paper to form the feathers of the chicks. Once they were finished we used some googly eyes and orange paper as beaks to form the chicks faces. To complete the finished product Miss Briohny cut out an egg shape and placed the chicks inside so they looked like they were in the process of hatching. Spencer watched as Miss Briohny worked and said that the chicks are hatching.

# CREATE A FARM

Spencer, Evan, Abigail and Mikayla worked at the table with the create a farm activity. Selecting one of the backgrounds they searched through the animals and nature images to identify what they wanted to work with. Once they had selected their pictures they worked to place them around the farm backgrounds. Miss Megha joined the children at the table and talked about the different animals at the table.

This activity encouraged the children to use their recognition skills to identify the different animals and the sounds they made.

# CHILD INITIATED PLAY

Nathaniel, Mikayla and Hanson spent some time playing in the home corner. Mikayla found the iron and moved it along the floor, while Nathaniel found the shopping basket and filled it with different home corner food, pushing it around the room. Hanson pretended to do some cooking in home corner.

Philip and Ryan played together by driving the trucks around the dolphins room. They demonstrated their sharing skills as they took turns with the different trucks. They also listened to some songs on the computer about different trucks and vehicles.

# CHILD INITIATED PLAY

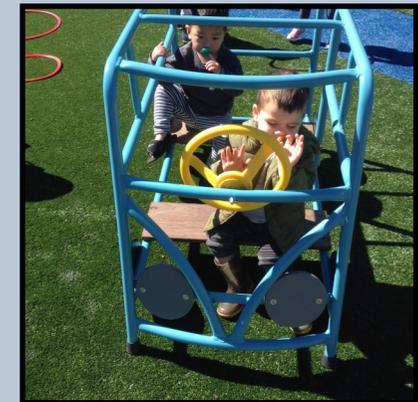

Mikayla and Harlow spent some time playing with the magnetic shapes on the mat. Harlow watched Miss Megha as she placed the shapes together to form different constructions.

Ryan, Nathaniel, Mikayla and Spencer took turns playing with the Rata-tak. Holding the stick between their hands they twisted it between their fingers making the balls hit each side of the drum. Mikayla, Spencer and Nathaniel, each took turns, sharing the drum between each other and doing different poses.

As we had only 12 children this morning we spent the morning inside and then went for a play before lunch. Mikayla found the hula hoops and tried rolling them along the ground while Philip tried to hula hoop with it around his hips. Ryan enjoyed riding his bike around the yard. Evan, Harlow, Kai Li, Spencer and Mikayla all took turns sliding down the different slides with big smiles on their faces. Nathaniel and Hanson sat together on the bus while some of the children just enjoyed being out in the sun.

# OUTDOOR

# Analysis of learning

As a combined group, children got a chance to develop their peer-bonding and widens the areas of their interest after being in a different room, exploring new toys and activities. Such group experiences not only develop the social skills but also fosters the emotional development in children.

# Reflection of the day

We had a fun day today where children loved to explore indoors and outdoors, took part in interesting planned experiences and explored their interests. We look forward to see all our beautiful children on Monday.

Have a great and safe weekend families!
